

# NIPUNA WASALA

**Full-Stack Developer** (Full Working Rights in Australia)

Pascoe Vale, VIC 3044 | +61 422737889 | nipunas98@gmail.com

---

## SUMMARY

I am a highly focused and detail-oriented Full-Stack Developer with 4+ years of experience delivering scalable, high-performance web applications across FinTech, MarTech, and CMS domains. I specialize in full-stack development with expertise in React, Next.js, Node.js, Express, Spring Boot, and have strong experience in AWS services, including Lambda, Amplify, API Gateway, S3, DynamoDB, and IAM. I am also skilled in implementing CI/CD pipelines using Jenkins, ensuring smooth and automated deployment processes. Passionate about solving complex problems and building robust solutions, I thrive in collaborative team environments and enjoy taking on new challenges that expand my technical skill set and contribute to impactful projects.

---

## WORK EXPERIENCE

**Full-Stack Developer, HRC Labs (Pvt). Ltd**

**Jun 2023 - Jul 2025**

K1 (Formerly known as HRC Kollekt)

- Developed end-to-end backend and frontend features for the K1 payment collection platform, delivering robust solutions using React.js (TypeScript), Node.js (TypeScript), and MariaDB.
- These improvements boosted patient engagement, streamlined payment reminders, and enabled flexible installment plans, directly increasing customer retention and expediting cash recovery for healthcare providers

One HRC

- Designed and developed the core front-end architecture, responsive layouts, and reusable custom components for One HRC, an integrated platform that unifies all Health Recon Connect applications, using React.js with Vite and Tailwind CSS.
- Implemented role-based access control and intuitive dashboards with real-time reports, providing actionable insights that improved operational efficiency and empowered stakeholder decision-making.

**Software Engineer II, Arimac (Pvt). Ltd**

**Apr 2022 - Jun 2023**

**Software Engineer I, Arimac (Pvt). Ltd**

**Jun 2021 - Apr 2022**

Social Reach

- Led the frontend development team to revamp Social Reach, an integrated social listening and reporting platform that extracts actionable insights on brands, products, and services by analyzing social trends, online conversations, and audience sentiment.
- Redesigned the entire user interface with Next.js and Tailwind CSS, significantly improving system performance, responsiveness, and overall usability.
- Delivered new features for detailed analytics and advanced reporting dashboards, boosting client satisfaction and enabling data-driven marketing decisions.

Sampath Bank PLC - CMS

- Worked as a Full-Stack Developer on the Content Management System for Sampath Bank PLC's new website, leveraging React and Strapi (Node.js Headless CMS) to build dynamic, maintainable content workflows.
- Enabled streamlined content updates and delivered an improved digital experience for customers, supporting the bank's brand modernization initiatives and enhancing overall operational efficiency.

Ooredoo Algeria

- Worked as a Frontend Developer to build key components for the Ooredoo Algeria Selfcare web portal, enhancing the customer experience with intuitive interfaces and streamlined workflows that help thousands of users manage their accounts and services more efficiently.

Trainee Software Engineer, Procons Infotech (Pvt). Ltd

Nov 2018 - Feb 2019

- Provided comprehensive technical documentation and coding support for the membership management system of the Institute of Engineers Sri Lanka (IESL), ensuring system reliability, streamlined member operations, and improved maintainability for future enhancements.

CORE COMPETENCIES

- Front-End Development : React JS, Next JS, HTML5
- Back-End Development : Node.js, Express.js, GraphQL, Springboot
- Database Development : MySQL, MongoDB, PostgreSQL, MariaDB
- AWS : Lambda, Amplify, API Gateway, S3, DynamoDB, IAM
- AI Tools : Claude Code, Gemini, Ollama
- CI/CD: GitHub Actions, Jenkins
- Version Control : GitLab, GitHub, Bitbucket
- Agile Processes : Jira, Trello
- UI/UX Design: Figma

EDUCATION

- Bachelor of Computing in Software Engineering
- Nov 2017 - Mar 2021
- Curtin University, Australia
- Specialization in Software Engineering.
- Higher Diploma in Information Technology
- Feb 2018 - Oct 2019
- Sri Lanka Institute of Information Technology, Sri Lanka

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02)
- Jun 2026 - Jun 2029
- [View Credential](#)
- Google IT Support Professional Certificate
- Comprehensive Five Course Certification
